the Eighth International Conference

# Littoral2006

*Coastal Innovations and Initiatives*

**18<sup>th</sup>–20<sup>th</sup> September 2006**

**Gdańsk University of Technology**

**Gdańsk, Poland**

Papers focusing on Knowledge, Entrepreneurships, Innovations, Techniques and Instruments, Theory and Practice or Case Studies, Applications and Implementations are now invited on the following major topics:

- Socio-economic Value of Coastal Areas – Regional Coastal Economies
- Coastal Information, Communications and Data Network
- Coastal and Marine Tourism and Recreation
- Trends and Processes in Coastal Environment
- Exploration and Exploitation of Live Marine Resources
- Coastal Protection, Dynamics and Geomorphology
- Protection of Marine and Coastal Habitats
- Conservation of Coastal Culture Heritage and Landscape Values
- Integrated Coastal Zone Management and Maritime Administration
- Coastal Policy, Planning and Land Use Conflicts
- Changing Nature of Coastal Communities
- Coastal Research and Development Programme and Implementation – Connecting Science and Policy
- Education and Training
- Urban Waterfront Development
- Ports and Harbours
- Coastal Energy

We intend to organise workshops on the following topics:

- Land Use of Waterfront Areas
- Conservation of Spits and Peninsulas

The Conference Study Tours will present the urban development of Gdansk and Gdynia waterfronts as well as the most spectacular natural phenomena in the Bay of Gdansk region, e.g.: the delta of the Vistula River, Sobieszewska Island with the "Ptasi Raj" birds' reserve, the 60-metre-high cliff in Gdynia, and the Hel Spit.

**Honorary Chairman of the Conference**
